YOUR PARTNER IN

PRECISION ENGINEERING

BMMS is a leading South African engineering company, fully equipped with modern workshop facilities and highly experienced engineers, designers and machine operators. We manufacture a wide range of precision components and complex parts, offering reliable, high-quality solutions for a variety of industries.

ESTABLISHED 1982

BUILT ON EXPERIENCE.
DRIVEN BY QUALITY.

Precision Machining

Custom Manufacturing

Engineering Solutions

PRECISION • QUALITY • RELIABILITY

SERVICES

PRECISION • QUALITY • RELIABILITY

CNC Machining Centres

Features & Benefits

Machining centres up to 1200mm in length.

High precision machining.

Repeatable quality.

4th axis machining.

Capabilities:

Haas Mini Mill	X400mm Y300mm Z240mm
ACE VC	X760mm Y510mm Z570mm
Mynx 540 CNC Machining Centre	X1020mm Y510mm Z625mm with 4th axis
Tool and CNC Machining Centre	X1020mm Y510mm Z625mm
VF4 Haas Machining Centre	X 1200mm Y500mm Z620mm
VF3 Haas Machining Centre	X 1020mm Y500mm Z620mm

Wire Cutting & Grinding

Features & Benefits:

- Ability to cut high precision components.
- Extremely tight tolerances.
- Excellent surface finishes.
- Complex intricate shapes can be produced.
- Hardened materials can be cut reducing heat stress.

Capabilities:

Agie Charmilles Wire Cutting Machine	600x400x300
Surface Grinder Table	800 x400mm and Travel 930mm x450mm

Manual lathe

Features & Benefits

- 8 meters between centres.
- 580mm diameter over saddle.
- 1000mm diameter chucking.

PRECISION • QUALITY • RELIABILITY

Vertical Boring Mill

Features and Benefits

- Can machine up to 2m x 1m.
- Quality assured.
- Suitable for heavy machine work.

Capabilities:

- 36' Webster & Bennet 600mm height.
- 48' Webster & Bennet
- 72' Webster & Bennet
- 48' Vertical CNC Lathe

Machining Capacity
2m x 1m
Maximum Machining Area

CNC Turning Lathes

Features and Benefits

- Diverse range of CNC Lathes up to 2800mm in length.
- High precision turning.
- Reproducible accuracy.
- Quality assured.
- Live tooling & C axis.

Turning Capacity
2800mm
Maximum Turning Length

Capabilities:

- Puma 240 CNC Lathe max turning diameter 350mm, max turning length 560mm.
- Puma 400LMB CNC Lathe max turning diameter 580mm, max turning length 2m.
- Haas CNC Lathe 250 diameter x 1000mm
- Gildemeister 3m CNC Lathe 350 diameter x 2800mm

Radial Arm Drill

Features and Benefits

- Can be to perform operations such as drilling, countersinking, boring, counter boring, spot facing, reaming, and tapping.

Machining Operations:

Drilling
Countersinking
Boring
Reaming
Spot facing
Tapping

PRECISION IN EVERY DETAIL.

Advanced Machinery. Skilled Operators. Reliable Results.

BMMS | ENGINEERING SOLUTIONS

PRECISION • QUALITY • RELIABILITY

Horizontal Boring Mill

Capabilities:

- Small to medium capability.
- Union Horizontal Boring Mill table 1400x x 1299mm, L2300mm x B1500mm x H1700mm.

Gear Cutting

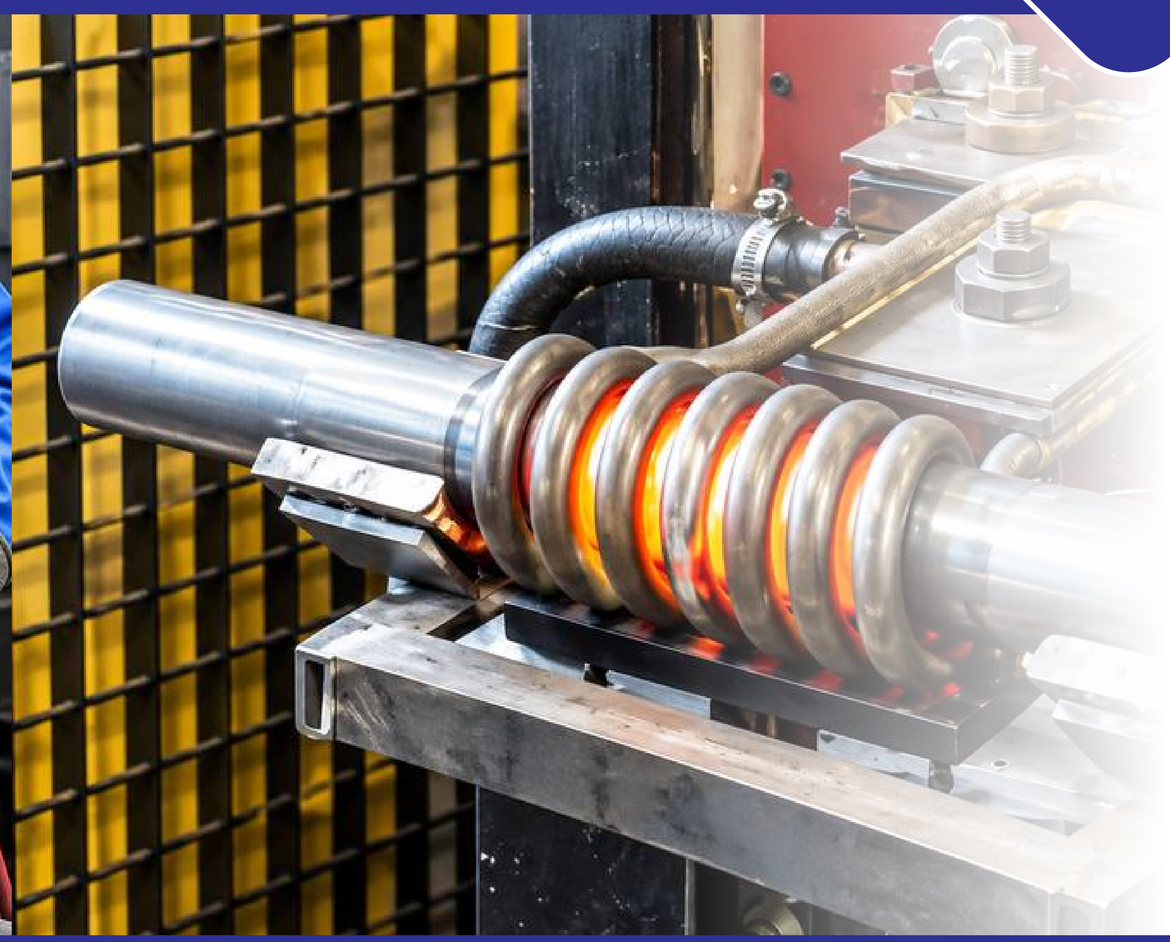

Capabilities:

- Both internal and external up to 3m diameter and a face width of 450mm.

Wear resistant coating

Induction heater & Bender
