NEW AND IMPROVED MIXER KNIFE

BMMS
BRICK MANAGEMENT &
MANUFACTURING SUPPLIES (PTY) LTD

Proudly introduces the

SLIP-ON MIXER KNIFE

BENEFITS

- Less weight in the mixer tub due to a **lighter** knife. This reduces both operating Amps, and wear and tear on the gearbox.
- **Maintenance** down time reduced due to easy replacement.
- A **slip-on sleeve** replaces the three attaching bolts of the old design.
- Increased **protection** to the shaft where the knife attaches.
- Increased **stability** of the knife on the shaft.
- **Stronger** material used for manufacture of the shank.
